PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

An army barracks is located on the northern edge of Sary-Ozek (Figure 1). The installation covers approximately 150 acres and contains 1 administration building, 1 probable administration building, 13 barracks, 12 barracks/quarters, 16 quarters, 7 storage buildings, 13 probable storage buildings, 1 probable bunker, 1 vehicle park, 3 vehicle sheds, 1 possible vehicle shed, 2 probable maintenance buildings, and 35 support buildings. A small bivouac area is located between the barracks and a small training area (Figures 2 and 3).

The small training area is located 2 kilo-

meters (km) north of the barracks. It covers approximately 100 acres and contains an infantry field-training area and field-artillery training batteries.

The area is covered on [REDACTED] KEYHOLE missions between [REDACTED] Nine barracks, 10 barracks/quarters, 1 multi-story barracks under construction, 2 storage buildings, 7 probable storage buildings, 28 support buildings, and 1 probable maintenance building were first observed on [REDACTED] coverage. A light rate of activity is noted on all photography.

DESCRIPTION OF INSTALLATION

Railroad Service

The installation is probably served by a spur from the Sary-Ozek rail line.

Road Service

Urban streets serve the area.

Administration and Troop Housing Areas

Area D1 contains 1 L-shaped probable administration building, 5 multistory barracks, 8 barracks, 12 barracks/quarters, 16 quarters, 2 storage buildings, and 6 support buildings. Four multistory barracks, 1 multistory barracks under construction, 5 barracks, 10 barracks/quarters, 2 storage buildings, and 6 support buildings were first observed on [REDACTED] photography.

Area D2 is a bivouac area.

General Storage Areas

Area E1 is possibly secured and contains 4 storage buildings and 1 support building. A probable vehicle shed was removed and the support building was constructed between [REDACTED]

Area E2 is secured on 3 sides and contains 13 probable storage buildings, 1 T-shaped administration building, 1 separately secured storage building, and 11 support buildings. Seven probable storage and 6 support buildings were first observed on [REDACTED] photography.

Ammunition Storage Area

Area F contains a probable bunker and a support building.

POL Storage Area

Four medium and 11 small vertical POL tanks and 10 horizontal POL tanks are located in Sary-Ozek.

Other Buildings

Area H contains 6 support buildings which were first observed on [REDACTED] photography.

Equipment Storage/Maintenance Areas

Area J1 is secured and contains 3 vehicle sheds (two 300 by 40 feet and one 270 by 40

25X1D feet), 2 probable maintenance buildings (one
120 by 70 feet and one 120 by 35 feet with a
60- by 35-foot leg), and 3 support buildings.
One probable maintenance building and 2 support
25X1D buildings were first observed on [REDACTED]
25X1D photography.

Area J2 is secured and contains a 165- by
35-foot possible vehicle shed and 3 support
25X1D buildings which were first observed on [REDACTED]
[REDACTED] coverage.

25X1D Area J3 contains a secured 300- by 240-
foot vehicle park and 4 support buildings (3
located in the vehicle park). The support

buildings were first observed on [REDACTED] 25X1D
coverage.

Artillery Emplacements (Batteries)

Possible field-artillery revetments with 4
firing positions are located 3 km northwest of
the barracks.

Infantry or Combined-Arms Field-Training Area or Courses

Area R is an infantry field-training area
consisting of trenches and personnel revetments.
